EDUCATION

Ajeenkya DY Patil University (CGPA: 8.26) Lohegaon, Pune
Bachelor of Technology in Artificial Intelligence & Data Science Sept. 2023 – May. 2026
DY Patil School Of Engineering (Percentage: 75.54%) Lohegaon, Pune
Diploma in Computer Engineering Dec. 2020 – Aug. 2023

EXPERIENCE

ThynkTech India Pvt. Ltd. Pune, India
Associate Software Engineer Intern Sept. 2025 – Mar. 2026

- Contributed to the development of **ThynkLearn**, an AI-powered learning platform, by designing and implementing production-ready AI/ML modules used in the live system.
- Implemented **vector database-based semantic search** for efficient document retrieval and knowledge grounding using embeddings.
- Designed end-to-end workflows for data ingestion, embedding generation, storage, and inference.

Infinite Graphix Pvt Ltd Pune, India
Frontend Web Design Intern July 2022 – Aug. 2022

- Completed an academic internship focused on front-end development, translating design mockups into functional, responsive web pages.
- Built and styled user interface components using core technologies including HTML5, CSS3, and JavaScript.
- Utilized the Bootstrap framework to ensure cross-browser compatibility and responsive design principles across projects.

PROJECTS

ATLAS 🗄️ | *Python, FastAPI, NLP, ReactJS, PostgreSQL* December 2025

- Developed full-stack platform generating user-friendly visualizations from uploaded datasets.
- Integrated NLP capabilities enabling custom graphs via natural language queries.
- Implemented ML algorithms to automatically detect and highlight hidden data insights.
- Engineered scalable backend with FastAPI, ReactJS frontend, and PostgreSQL database.

SentimentIQ 🗄️ | *Python, Streamlit, Gemini API, Pandas* May 2026

- Developed an AI-powered Streamlit application using the Google Gemini API to analyze customer feedback, extracting sentiment, urgency, and root issues
- Implemented bulk CSV processing using Pandas and built interactive Plotly dashboards to visualize sentiment distribution and auto-generate empathetic draft responses

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript (ES6+), SQL, HTML/CSS
AI / Machine Learning: Retrieval-Augmented Generation (RAG), Vector Databases, Embeddings, Semantic Search
Software Engineering: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Software Development Life Cycle (SDLC), Agile Methodologies, Unit Testing, Version Control (Git & Github)
Frameworks & Tools: Django, Flask, React.js, Android SDK, Postman, Chrome Extension APIs, Android Studio
Libraries: Pandas, scikit-learn, NLTK, BeautifulSoup
Areas of Interest: Full-Stack Development, Software Engineering, Natural Language Processing (NLP), Chatbot Development

CERTIFICATIONS

Saylor.org: CS302: Software Engineering
Great Learning: Generative AI for beginners
LinkedIn: Mobile testing with Appium
HackerRank: Problem Solving, Python.
Anthropic: AI Fluency for Students
